"Illegal, fraudulent and unauthorised use of the names "Ocean Network Express Pte Ltd" ("ONE") and "Ocean Network Express Group" ("ONE Group") by third parties claiming to recruit employees in the name or on behalf of ONE and ONE Group"

ONE and ONE Group have recently received information concerning individuals claiming to have been recruited as employees or seafarers of ONE and ONE Group through third parties.

These purported recruitment drives were initiated by the third parties through phone calls, email invitations and professional networking sites. The individuals targeted may be required to make payment to the third parties for their services. The third parties may also furnish the targeted individuals with employment related documents purportedly issued by ONE or ONE Group after rendering their services.

Members of public are strongly advised that ONE and ONE Group do not engage the services of any third party or professional networking sites for recruitment of its employees. Such purported recruitment drives were carried out without the knowledge and consent of ONE and ONE Group, are not authorised and will not be recognised by ONE and ONE Group. The employment related documents received from individuals claiming to have been recruited as employees or seafarers of ONE and ONE Group through the third parties have been found to be false or forged.

ONE and ONE Group strongly caution members of public against responding to these purported recruitment drives. ONE and ONE Group will not be responsible for any loss suffered by members of public through such recruitment drives. Members of public targeted are strongly advised to turn down such approaches and report to the authorities.

ONE and ONE Group are currently investigating into and seeking legal advice on this matter, with a view to lodging a complaint to the authorities.
